Getting Started

Welcome to netStartClass! This is your log-in screen. You can access this screen from any computer connected to the Internet. In most cases this page will be located at:

http://classroom.lagovistaisd.net

Step 1...

Enter your UserName. In most cases your username is the first part of your e-mail address. Exp: Username@district.com

Step 2...

Enter your Password. In most cases your password is your district e-mail password.

Step 3...

Click "Login".

Web Site Manager

The Web Site Manager is the starting point for building and editing your Web Pages. Here you can:

- Edit Web Pages
- Preview Web Pages
- Modify Web Site Properties
- Remove Web Pages
- Add More Web Pages

Step 1...

To edit your "Home Page", click on the "Radio Button" next to home page. (The home page is selected by default).

Step 2...

Next, click "Edit".

by netStart Web Services for Education

Content Editor

The Content Editor Page is the place where you can create and modify your web pages. Here you can:

- Add a Slogan
- Modify Page Footnotes
- Add Images
- Add a Headline
- Add Story Content

Step 1...

Select "Preview" from the left side of the page. Review your home page.

Step 2...

Close the preview window by clicking on the "X" on the upper right hand corner of the window.

Step 3...

To modify your page content, place your mouse curser in the content box and begin editing your text.

Page Layout

Change your "Page Layout" to give each of your web pages a unique appearance.

Step 1...

Click on the page layout image on the left side of the page. Just above the "Save Changes" button.

Step 2...

Select a layout from the pop-up window by clicking on one of the images.

Step 3...

Select "Preview" from the left side of the page to see your new web page layout.

by netStart Web Services for Education

Adding Images

The Content Editor provides the following options for adding images to your web pages.

- Upload an Image
- Choose Images you have Uploaded
- Choose the netStart Image Gallery
- Delete an Image
- Resize your Jpeg Images

Step 1...

Click on the blue link, "Select from the netStart2000 Images".

Step 2...

Browse through the images by clicking on "Next or Previous". Click on the image you wish to add to your page.

Step 3...

Select "Preview" from the left side of the page to see your new image.

Resizing an Image

You can easily change the size of an image by selecting "Re-size this Image".

Step 1...

Click on the blue link, "Resize This Image". **Step 2...**

Select a percentage of your original image's size, then click preview to view the resized image. Repeat until desired image size is selected.

Step 3...

Click "Save" to add the resized image to your web page. Note: after an image has been resized, additional resizing will cause the image to degrade.

Step 4...

Select "Continue" from the left side of the page, to return to the Web Site Manager.

Event Manager

From the Event Manager you can add, delete or modify events on your calendar.

Step 1...

To add an event to your calendar:

- Choose the Event Date
- Enter the Event Name
- Choose Type: Holiday or Standard
- Choose Event Start Time
- Choose Event End Time
- Enter an Event Description
- Add Recurring Options

Note: You can enter one event and have your event repeat every day, every week on this day, every two weeks on this day, every year on this day, etc. Example: If you want your event to appear for five days, select recur every day and enter an expire date for the end of day of the recurrence.

Download Editor

The Content Editor for the Download Page has the same features as the Content Editor we use when editing the Home Page. One additional feature is the "Document Upload". This feature will allow you to post documents to your web page.

Step 1...

Add a headline, which is the title of your document. Exp: Spelling Words.

Step 2...

In the Content Box, add a description of the file your are posting. Here you should also tell your visitors what type of file you have posted. Exp: This MSWord Document.

Step 3...

Click the "Upload" button below the Content Box. Then click browse to find a file on your computer or on your network. Then click "Begin Upload".

Step 4...

Select "Preview" from the left side of the page to see your new Download web page.
